DETAILED ACTION

Claim Objections

1. Claim 1 objected to because of the following informalities:

Claim 1 recites the limitation “forming a core conductive layer on the seed layer, the core conductive layer substantially of one or more of aluminum, silver or gold” in lines 6-7.

However, the claim contains improper Markush grouping of claims. See MPEP § 2173.05 (h).

The claim limitation can be recited as -- forming a core conductive layer on the seed layer, the core conductive layer substantially consisting one or more of aluminum, silver or gold--.

Applicant also advised to make proper changes throughout the claims including the withdrawn claims. Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-12 are allowed over prior art of record.

Conclusion

3. This application is in condition for allowance except for the following formal matters:

The formal matter(s) that set forth in Paragraph 1 above should be addressed by applicant(s) prior pass the instant application to issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
